Title:

METHOD FOR OPERATING A COIN ACTUATED

ENTERTAINMENT AUTOMAT

Examiner:

Dolores R. Collins

September 29, 2000 ADP231S3 The superscript information disclosure statement under 37 CFR § 1.97

Hon. Commissioner of Patents and Trademarks Washington, D.C. 20231

SIR:

Submitted herewith is a copy of European Séarch Report issued in an European Patent Office on May 9, 2000 and International Search Report issued in European Patent Office on October 2, 1996.

- 1. We wish to make of record certain citations listed in the International Search Report and European Search Report in accordance with 37 CFR 1.97.
- The relevance of each listed item with regard to the different claims of the above-identified application according to the opinion of the Search Authority is indicated in the Search Report

by reference to certain categories which are explained on the Search Report sheet or in MPEP on page 1800-34, resp. <X>

the claims for which the Search Report has been established.

- 4. Copies of the following references cited in the European and International Search Report are enclosed herewith:
 - GB 2 144 568 - WO - 96 25725 - EP - 0 338 644 - US - 5 116 055
- 5. Copies of the following references cited in the International Search Report:

have been submitted to the United States Patent and Trademark Office on July 23, 1996.

- 6. The following patent documents:
 - GB 2 214 909
 - US 5 110 617
 - EP 0 388 103
 - US 5 292 127
 - DE 22 30 816

are also cited in the International Search Report.

Applicant will submit copies of these references as they become available.

The present submission was not made at an earlier

date, since the materials submitted were not available to the attorney about the time of filing of the application. The attorney endeavors to notify the applicant about the requirements of the United States Patent and Trademark Office relating to submission of prior art and upon receipt of such prior art it is submitted to the United States Patent and Trademark Office with reasonable promptness as the attorney caseload allows.

In view of holdings of attorneys as being grossly negligent in not submitting certain documents in prior holdings of the United States Patent and Trademark Office, it is believed that the art submitted now would raise in view of standards applied in said holdings of gross negligence of attorneys a serious question as to the patentability of the claimed subject matter. While the attorney does not have any certainty as to how and under which circumstances each individual prior art piece became known to an applicant, most of such documents submitted during the later stages of a patent prosecution have generally been cited in the course of foreign examining procedures by foreign examiners considering patentability of an equivalent or corresponding foreign application. If there should be a specific interest on the side of the United States Patent and Trademark Office as to how and under which

SN: 09/491,779 ADP231S3 September 29, 2000 Page 3

circumstances individual documents became known to the applicant, then the applicant is ready to provide additional information as to specific details relating to the circumstances of the uncover of individual documents as requested by the United States Patent and Trademark Office.

The above recited references taken alone or in combination are believed to neither anticipate nor to render obvious the present application.

Respectfully submitted,

Michael Gauselmann
